

Anchor tags for Ah-Ah and Tee-Tee

Print at 100 % (actual size), not "fit to page". Then check one with a ruler: the black square should be 100 mm across. If it isn't, tell the Nest the size you measured.

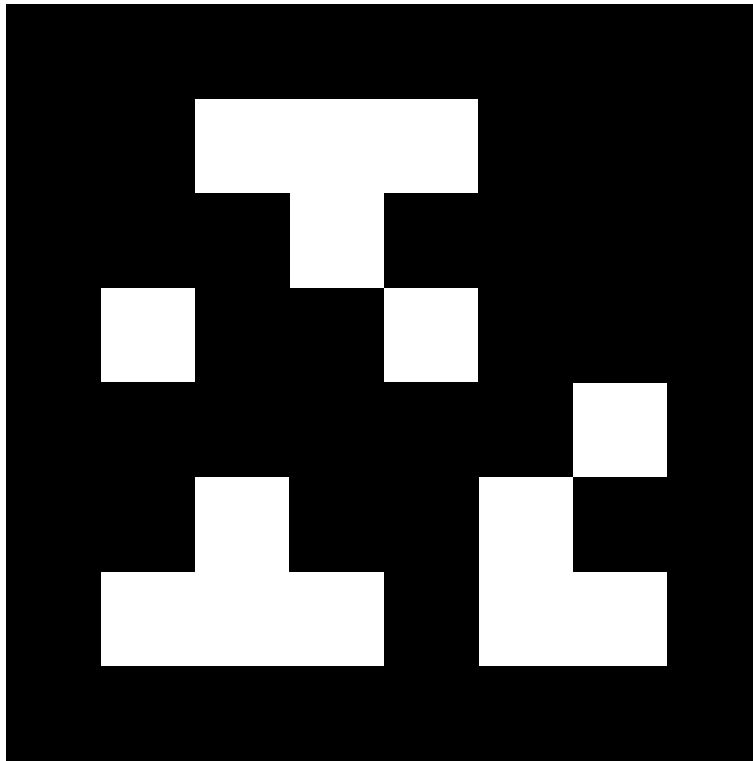

Stick each on a wall at its spot, upright (arrow up), flat, and with its **centre 20 cm above the floor**: the same height for all nine, because the walkthrough uses them to find the floor. Avoid shiny laminate, which glares in photos. Put them up **before** you film the walkthrough, so they're in the video.

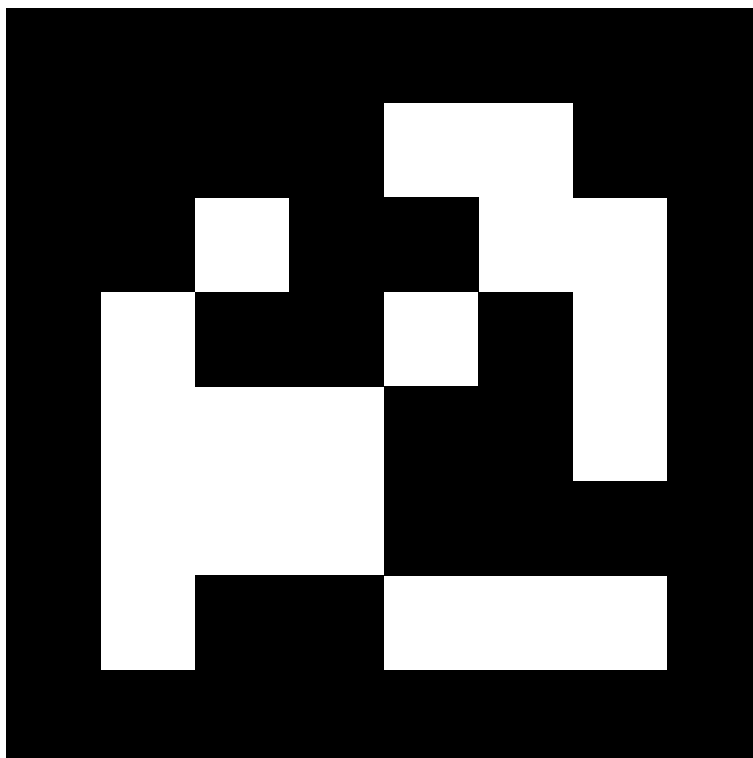

Tag 0 · Lounge, by the Nest (the chargers)
tag36h11 · 100 mm · this side up ↑

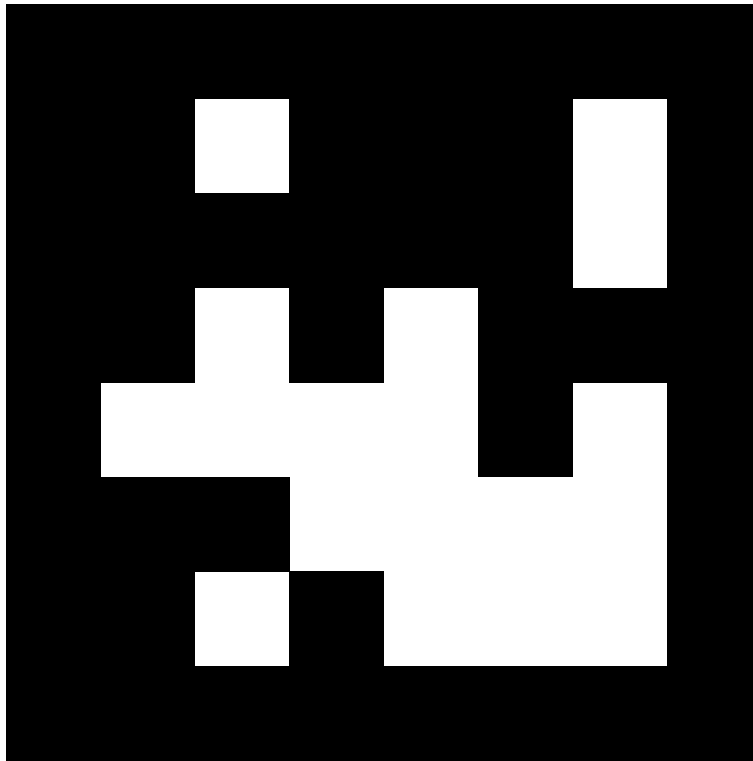

Tag 1 · Lounge, across the room
tag36h11 · 100 mm · this side up ↑
